

HYBRID GLOVES

A cost effective solution that offers increased performance over poly and cost savings versus vinyl. Perfect for general foodservice applications to ensure food safety protection.

FEATURES & BENEFITS

- Patented synthetic formulation for excellent stretch and comfort
- Advanced memory material conforms to the user's hands
- Good cost savings over traditional vinyl
- Safer to wear; no BPA, DOP or DEHP
- Latex free

FIT & COMFORT

- More form fitting than poly

APPLICATIONS

- General food service
- Sandwich and salad preparation
- Bakery and deli
- Light tasks
