

# SYNTHETIC GLOVES

Simulate the tight, yet comfortable fit of latex without the allergy risks that are often associated with latex proteins. Excellent for cutting fruits and vegetables, fast food preparation and plating.

## FEATURES & BENEFITS

- Economic alternative to Latex
- Latex free
- Aloe glove option protects and soothes skin from irritation and dry hands

## FIT & COMFORT

- Form fitting
- Slightly better fit than standard vinyl

## APPLICATIONS

- General food service
- Aloe glove is great in cold and dry climates
